

SHAIK SAQUEEBE NOUSHEEN

Hyderabad, India | nousheen0116@gmail.com | 7569027501 | LinkedIn | GitHub

Professional Summary

Final-year B.Tech student with hands-on experience in Artificial Intelligence, Computer Vision, and AI model validation. Experienced in object detection using YOLO architectures, dataset preprocessing, and performance evaluation. Passionate about developing scalable and reliable AI-driven solutions.

Education

KL University, Hyderabad

Aug 2021 – Aug 2025

B.Tech in ECE GPA: 9.34

Sri Chaitanya Junior College, Hyderabad

Apr 2022

Intermediate GPA: 9.36

Technical Skills

Languages: Python, Java

AI/ML: Machine Learning, Computer Vision, YOLOv5, YOLOv8

Tools: PyTorch, TensorFlow, OpenCV, Git, Postman, Gazebo

Databases: SQL, MongoDB

Experience

OPPO – AI Data & Testing Intern

Jan 2026 – Present

- Perform AI model validation and functional testing to ensure system reliability and accuracy.
- Conduct dataset annotation, preprocessing, and quality assurance checks for training pipelines.
- Analyze model outputs to identify performance bottlenecks and assist in optimization strategies.
- Collaborate with engineering teams to improve robustness and real-world deployment readiness.

IIT Tirupati – AI / Machine Learning Intern

May 2024 – Jul 2024

- Developed YOLOv5/YOLOv8 models with Oriented Bounding Box (OBB) support for aerial object detection.
- Trained models on VisDrone and DOTA datasets, improving detection performance in complex environments.
- Implemented model evaluation using precision, recall, and mAP metrics.

Projects

AI-Powered Feedback Collection and Insight Platform

- Built a full-stack MERN application integrating AI services for real-time sentiment analysis and text summarization.
- Implemented clustering techniques to identify recurring feedback themes.
- Designed an analytics dashboard to visualize trends and support data-driven decision making.

Autonomous Smart Car – AIM 2024

- Developed ROS-based autonomous navigation system in Gazebo simulation.
- Integrated YOLOv5 for real-time traffic sign recognition and obstacle avoidance.
- Improved navigation accuracy through path-following and object detection integration.

Achievements

- AI Arjuna Award – NXP AIM 2024
- 2-Star Rating on CodeChef

Soft Skills

Problem Solving — Teamwork — Communication — Analytical Thinking
